

Lejar dan Akaun Kawalan (Ledgers and Control Accounts)

Fail Excel: [prinsip-akaun/excel/Akaun_Kawalan.xlsx](#). Contoh di bawah dijana daripada tab Contoh (oren). Soalan 3, 4 dan 5 boleh disemak sendiri dalam tab biru.

Excel file: the examples below come from the orange Contoh (Example) tabs. Questions 3, 4 and 5 mark themselves on the blue tabs.

Semua amaun dalam Ringgit Malaysia (RM). Baki b/b = baki bawa turun (awal tempoh). Baki h/b = baki hantar bawah (akhir tempoh).

All amounts are in RM. Baki b/b = balance brought down (start of the period). Baki h/b = balance carried down (end of the period).

Bahasa Melayu dahulu, kemudian *English dalam huruf condong*. Malay comes first, then English in *italics*. Glosari penuh / full glossary: [Glosari_PA.md](#)

1. Objektif pembelajaran (Learning objectives)

1. Menerangkan maksud lebar, Lejar Am dan Lejar Khas. *Explain the ledger, the General Ledger and the special ledgers.*
2. Merekod akaun dalam bentuk T dan bentuk berbaki. *Record accounts in T form and running balance form.*
3. Membezakan akaun nyata dan akaun nominal. *Tell real accounts from nominal accounts.*
4. Menyediakan Akaun Kawalan Belum Terima dan Akaun Kawalan Belum Bayar. *Prepare the trade receivables and trade payables control accounts.*
5. Merekod catatan kontra. *Record contra entries.*
6. Menyatakan tujuan dan implikasi akaun kawalan. *State the purposes and limitations of control accounts.*

2. Lejar (The ledger)

Lejar ialah buku catatan akhir yang merekodkan semua urus niaga perniagaan mengikut Sistem Catatan Bergu (setiap urus niaga didebitkan dan dikreditkan).

The ledger is the book of final entry. It records every business transaction using the double entry system: each transaction is debited and credited.

Jenis lejar (Type of ledger)	Kandungan	Contents in English
Lejar Am (General Ledger)	Semua akaun selain Akaun Belum Terima dan Akaun Belum Bayar: aset, liabiliti, ekuiti pemilik, hasil dan belanja	All accounts except trade receivables and trade payables: assets, liabilities, owner's equity, income and expenses
Lejar Jualan (Sales Ledger), juga Lejar Akaun Belum Terima	Akaun setiap pelanggan yang membeli barang niaga secara kredit	One account for each credit customer
Lejar Belian (Purchases Ledger), juga Lejar Akaun Belum Bayar	Akaun setiap pembekal yang menjual barang niaga secara kredit	One account for each credit supplier

Lejar Jualan dan Lejar Belian dikenali sebagai **Lejar Khas** (Lejar Subsidiari).

The Sales Ledger and the Purchases Ledger are called special ledgers (subsidiary ledgers).

3. Bentuk lejar (Ledger formats)

(a) Bentuk T (T form): sebelah debit (Dt) di kiri dan sebelah kredit (Kt) di kanan. Setiap sebelah mempunyai lajur Tarikh | Butir | Folio | Amaun. Baris pertama di bawah tajuk menunjukkan tahun, dengan RM dalam lajur Amaun.

Debit side (Dt) on the left, credit side (Kt) on the right. Each side has the columns Date | Particulars | Folio | Amount. The first row under the title shows the year, with RM in the Amount column.

(b) Bentuk berbaki (Running balance form): satu jadual dengan lajur Tarikh | Butir | Folio | Debit | Kredit | Baki. Baki dikira selepas setiap catatan. Bentuk ini sering digunakan untuk akaun pelanggan dan pembekal kerana baki terkini mudah dilihat.

One table with the columns Date | Particulars | Folio | Debit | Credit | Balance. The balance is worked out after every entry. Businesses often use this form for customer and supplier accounts because the latest balance is easy to see.

4. Akaun nyata dan akaun nominal (Real and nominal accounts)

Akaun nyata (Real accounts)	Akaun nominal (Nominal accounts)
Merekodkan semua aset, liabiliti dan ekuiti pemilik. <i>Record all assets, liabilities and owner's equity.</i>	Merekodkan semua hasil dan belanja. <i>Record all income and expenses.</i>
Baki dibawa ke tempoh berikutnya. <i>The balance carries on to the next period.</i>	Ditutup ke Akaun Untung Rugi pada akhir tempoh. <i>Closed to the Profit or Loss account at the end of the period.</i>
Contoh: premis, perabot, kenderaan, bank, tunai, inventori, Akaun Belum Bayar, modal. <i>Premises, furniture, vehicles, bank, cash, inventory, trade payables, capital.</i>	Contoh: pulangan jualan, pulangan belian, insurans, sewa, komisen diterima, jualan. <i>Sales returns, purchases returns, insurance, rent, commission received, sales.</i>

Peraturan merekod (Recording rules):

Jenis akaun (Type of account)	Bertambah (Increase)	Berkurang (Decrease)
Aset (Assets)	Debit	Kredit (Credit)
Belanja danambilan (Expenses and drawings)	Debit	Kredit (Credit)
Liabiliti (Liabilities)	Kredit (Credit)	Debit
Ekuiti pemilik, modal (Owner's equity, capital)	Kredit (Credit)	Debit
Hasil (Income)	Kredit (Credit)	Debit

5. Akaun Kawalan (Control accounts)

5.1 Tujuan (fungsi) akaun kawalan (Purposes of control accounts)

Akaun kawalan disediakan dalam Lejar Am untuk menunjukkan **jumlah baki** semua Akaun Belum Terima atau semua Akaun Belum Bayar.

A control account sits in the General Ledger. It shows the total balance of all trade receivables, or of all trade payables.

1. Memudahkan mengesan kesilapan dalam lejar khas. *Makes errors in the special ledgers easier to find.*
2. Menyemak ketepatan catatan dalam Lejar Jualan dan Lejar Belian. *Checks the accuracy of the Sales Ledger and Purchases Ledger.*
3. Memudahkan penyediaan imbalan duga, kerana hanya satu jumlah digunakan bagi setiap lejar khas. *Makes the trial balance quicker, because each special ledger needs only one total.*
4. Mencegah dan mengesan penyelewengan. *Prevents and detects fraud.*

Terdapat dua akaun kawalan: *There are two control accounts:*

- **Akaun Kawalan Belum Terima** (Akaun Kawalan Lejar Jualan): mewakili semua Akaun Belum Terima. *Trade receivables control account (sales ledger control account): stands for all trade receivables.*
- **Akaun Kawalan Belum Bayar** (Akaun Kawalan Lejar Belian): mewakili semua Akaun Belum Bayar. *Trade payables control account (purchases ledger control account): stands for all trade payables.*

5.2 Akaun Kawalan Belum Terima (Trade receivables control account)

Sebelah debit (Debit side)	Sebelah kredit (Credit side)
Baki b/b, baki debit awal (<i>opening debit balance</i>)	Baki b/b, baki kredit awal, jika ada (<i>opening credit balance, if any</i>)
Jualan kredit (<i>credit sales</i>)	Bank: tunai dan cek diterima (<i>cash and cheques received</i>)
Bank: cek tak laku (<i>dishonoured cheques</i>)	Diskaun diberi (<i>discount allowed</i>)
Diskaun diberi dibatalkan (<i>discount allowed cancelled</i>)	Pulangan jualan (<i>sales returns, returns inwards</i>)
Faedah atas akaun tertunggak (<i>interest on overdue accounts</i>)	Hutang lapuk (<i>bad debts written off</i>)
Angkutan keluar dicaj kepada pelanggan (<i>carriage outwards charged to customers</i>)	Kontra (<i>contra</i>)
Baki h/b, baki kredit akhir, jika ada (<i>closing credit balance, if any</i>)	Baki h/b, baki debit akhir (<i>closing debit balance</i>)

Sumber maklumat (Sources of information): Jurnal Jualan, Jurnal Pulangan Jualan, Buku Tunai, Jurnal Am. *Sales Journal, Sales Returns Journal, Cash Book, General Journal.*

Berbaki kredit jika (Has a credit balance when): pelanggan terlebih bayar, pelanggan memulangkan barang niaga selepas hutang dijelaskan, atau elaun atau diskaun diberi selepas hutang dijelaskan.

A customer overpays, a customer returns goods after paying in full, or an allowance or discount is given after the debt is paid.

5.3 Akaun Kawalan Belum Bayar (Trade payables control account)

Sebelah debit (Debit side)	Sebelah kredit (Credit side)
Baki b/b, baki debit awal, jika ada (<i>opening debit balance, if any</i>)	Baki b/b, baki kredit awal (<i>opening credit balance</i>)
Bank: tunai dan cek dibayar (<i>cash and cheques paid</i>)	Belian kredit (<i>credit purchases</i>)
Diskaun diterima (<i>discount received</i>)	Angkutan masuk dicaj oleh pembekal (<i>carriage inwards charged by suppliers</i>)
Pulangan belian (<i>purchases returns, returns outwards</i>)	Faedah dicaj oleh pembekal (<i>interest charged by suppliers</i>)
Kontra (<i>contra</i>)	Baki h/b, baki debit akhir, jika ada (<i>closing debit balance, if any</i>)
Baki h/b, baki kredit akhir (<i>closing credit balance</i>)	

Sumber maklumat (Sources of information): Jurnal Belian, Jurnal Pulangan Belian, Buku Tunai, Jurnal Am. *Purchases Journal, Purchases Returns Journal, Cash Book, General Journal.*

Berbaki debit jika (Has a debit balance when): perniagaan terlebih bayar kepada pembekal, perniagaan memulangkan barang niaga selepas hutang dijelaskan, atau elaun atau diskaun diterima selepas hutang dijelaskan.

The business overpays a supplier, returns goods after paying in full, or receives an allowance or discount after the debt is paid.

5.4 Contoh: Perniagaan Mesra, tahun berakhir 31 Disember 2025 (Example: Perniagaan Mesra, year ended 31 December 2025)

Kunci lejar (Ledger key): Tarikh = Date. Butir = Particulars. Amaun = Amount. Dt = Debit. Kt = Credit. Jan = January. Dis = December. Folio codes: JJ = Jurnal Jualan (Sales Journal), JB = Jurnal Belian (Purchases Journal), JPJ = Jurnal Pulangan Jualan (Sales Returns Journal), JPB = Jurnal Pulangan Belian (Purchases Returns Journal), BT = Buku Tunai (Cash Book), JA = Jurnal Am (General Journal).

Maklumat: Akaun Belum Terima pada 1 Januari 2025 RM12 400; jualan kredit RM48 600; tunai dan cek diterima RM41 250; diskaun diberi RM1 150; pulangan jualan RM860; hutang lapuk RM540; cek pelanggan tak laku RM700; kontra RM380; faedah atas akaun tertunggak RM60.

Information: trade receivables on 1 January 2025 RM12 400; credit sales RM48 600; cash and cheques received RM41 250; discount allowed RM1 150; sales returns RM860; bad debts RM540; dishonoured cheque RM700; contra RM380; interest on overdue accounts RM60.

Tarikh	Butir	Folio	Amaun	Tarikh	Butir	Folio	Amaun
2025			RM	2025			RM
Jan 1	Baki b/b		12,400	Dis 31	Bank	BT1	41,250
Dis 31	Jualan	JJ1	48,600	Dis 31	Diskaun diberi	BT1	1,150
Dis 31	Bank (cek tak laku)	BT1	700	Dis 31	Pulangan jualan	JPJ1	860
Dis 31	Faedah	JA1	60	Dis 31	Hutang lapuk	JA1	540
				Dis 31	Kontra	JA1	380
				Dis 31	Baki h/b		17,580
			61,760				61,760
2026							
Jan 1	Baki b/b		17,580				

Maklumat: Akaun Belum Bayar pada 1 Januari 2025 RM9 300; belian kredit RM36 800; cek dibayar RM34 100; diskaun diterima RM920; pulangan belian RM640; kontra RM380; angkutan masuk dicaj oleh pembekal RM150.

Information: trade payables on 1 January 2025 RM9 300; credit purchases RM36 800; cheques paid RM34 100; discount received RM920; purchases returns RM640; contra RM380; carriage inwards charged by suppliers RM150.

Dt Akaun Kawalan Belum Bayar Kt

Tarikh	Butir	Folio	Amaun	Tarikh	Butir	Folio	Amaun
2025			RM	2025			RM
Dis 31	Bank	BT1	34,100	Jan 1	Baki b/b		9,300
Dis 31	Diskaun diterima	BT1	920	Dis 31	Belian	JB1	36,800
Dis 31	Pulangan belian	JPB1	640	Dis 31	Angkutan masuk	JA1	150
Dis 31	Kontra	JA1	380				
Dis 31	Baki h/b		10,210				
			46,250				46,250
				2026			
				Jan 1	Baki b/b		10,210

Langkah menyediakan akaun kawalan (Steps to prepare a control account):

1. Catat Baki b/b pada hari pertama tempoh. *Enter the balance b/d on the first day of the period.*
2. Catat setiap item di sebelah yang betul (rujuk jadual 5.2 dan 5.3). *Enter each item on the correct side (see tables 5.2 and 5.3).*
3. Hitung Baki h/b sebagai angka pengimbang: jumlah sebelah yang lebih besar tolak semua item lain di sebelah yang lebih kecil. *Work out the balance c/d as the balancing figure: the bigger side's total minus every other item on the smaller side.*
4. Jumlahkan kedua-dua sebelah. Jumlahnya mesti sama. *Total both sides. The totals must match.*
5. Bawa turun baki pada hari pertama tempoh berikutnya, di sebelah yang bertentangan. *Bring the balance down on the first day of the next period, on the opposite side.*

Jika soalan tidak memberi jualan atau belian kredit, hitung sebagai angka pengimbang menggunakan baki awal dan baki akhir yang diberi (lihat Soalan 3).

If the question does not give credit sales or credit purchases, work them out as the balancing figure from the opening and closing balances given (see Question 3).

6. Catatan kontra (Contra entries)

1. Catatan kontra ialah pindahan daripada Lejar Jualan ke Lejar Belian atau sebaliknya. *A contra entry is a transfer between the Sales Ledger and the Purchases Ledger.*
2. Hanya berlaku apabila sebuah perniagaan menjual dan juga membeli barang niaga secara kredit daripada peniaga yang sama. *It only happens when the business both sells to and buys from the same trader on credit.*
3. Baki akaun yang lebih kecil dipindahkan ke baki akaun yang lebih besar. *The smaller balance is set off against the bigger balance.*

Contoh (Example): pada 3 Januari 2016, Perniagaan Wawan membeli barang niaga RM1 500 daripada Pembekal Yani. Pada 5 Januari 2016, Perniagaan Wawan menjual barang niaga RM450 kepada Pembekal Yani. Baki yang lebih kecil, RM450, dikontrakan.

On 3 January 2016, Perniagaan Wawan bought goods for RM1 500 from Pembekal Yani. On 5 January 2016, Perniagaan Wawan sold goods for RM450 to Pembekal Yani. The smaller balance, RM450, is the contra.

Lejar Belian (Purchases Ledger)

Dt Akaun Belum Bayar: Pembekal Yani Kt

Tarikh	Butir	Folio	Amaun	Tarikh	Butir	Folio	Amaun
2016			RM	2016			RM
Jan 31	Kontra	JA1	450	Jan 3	Belian	JB1	1,500
Jan 31	Baki h/b		1,050				
			1,500				1,500
				Feb 1	Baki b/b		1,050

Lejar Jualan (Sales Ledger)

Dt Akaun Belum Terima: Pembekal Yani Kt

Tarikh	Butir	Folio	Amaun	Tarikh	Butir	Folio	Amaun
2016			RM	2016			RM
Jan 5	Jualan	JJ1	450	Jan 31	Kontra	JA1	450
			450				450

Dalam akaun kawalan, kontra direkodkan di sebelah **kredit Akaun Kawalan Belum Terima** dan sebelah **debit Akaun Kawalan Belum Bayar**.

In the control accounts, the contra goes on the credit side of the trade receivables control account and the debit side of the trade payables control account.

7. Implikasi akaun kawalan (Limitations of control accounts)

Akaun kawalan hanya menyemak jumlah. Oleh itu: *A control account only checks totals. So:*

1. Sukar mengesan kesilapan ketinggalan catatan. *Errors of omission are hard to find.*
2. Sukar mengesan kesilapan menjumlahkan Akaun Belum Terima dan Akaun Belum Bayar. *Adding errors in the trade receivables and trade payables accounts are hard to find.*
3. Sukar mengesan kesilapan memindahkan catatan. *Posting errors are hard to find.*

8. Kesilapan biasa (Common mistakes)

- Merekod jualan tunai dalam Akaun Kawalan Belum Terima. Hanya jualan **kredit** dimasukkan. *Putting cash sales in the trade receivables control account. Only credit sales go in.*
- Meletakkan hutang lapuk di sebelah debit. Hutang lapuk mengurangkan Akaun Belum Terima, jadi di sebelah **kredit**. *Putting bad debts on the debit side. Bad debts reduce trade receivables, so they go on the credit side.*
- Lupa cek tak laku. Cek tak laku menambah semula hutang pelanggan, jadi di sebelah **debit** Akaun Kawalan Belum Terima. *Forgetting dishonoured cheques. A dishonoured cheque puts the customer's debt back, so it goes on the debit side.*
- Merekod kontra di sebelah yang sama dalam kedua-dua akaun kawalan. *Recording the contra on the same side in both control accounts.*

- Memasukkan peruntukan hutang ragu dalam akaun kawalan. Peruntukan hutang ragu tidak direkodkan dalam akaun kawalan. *Putting the allowance for doubtful debts in a control account. The allowance is never recorded there.*

9. Semak kefahaman (Check your understanding)

1. Nyatakan dua sumber maklumat bagi Akaun Kawalan Belum Bayar. *State two sources of information for the trade payables control account.*
2. Di sebelah manakah cek pelanggan tak laku direkodkan dalam Akaun Kawalan Belum Terima? *On which side of the trade receivables control account is a customer's dishonoured cheque recorded?*
3. Akaun Belum Bayar Kedai Ah Seng berbaki RM700 dan Akaun Belum Terima Kedai Ah Seng berbaki RM1 100. Berapakah amaun kontra? *Kedai Ah Seng's trade payable account has a balance of RM700 and its trade receivable account has a balance of RM1 100. What is the contra amount?*

Jawapan (Answers):

1. Mana-mana dua: Jurnal Belian, Jurnal Pulangan Belian, Buku Tunai, Jurnal Am. *Any two: Purchases Journal, Purchases Returns Journal, Cash Book, General Journal.*
2. Sebelah debit. *The debit side.*
3. RM700 (baki yang lebih kecil). *RM700, the smaller balance.*

Nota Prinsip Akaun. Percuma untuk digunakan dan dikongsi.
